CAREER OBJECTIVE

Motivated MERN Stack Developer specializing in building scalable, high-performance web applications using MongoDB, Express.js, React.js, Node.js, and Next.js. Skilled in developing and consuming RESTful APIs, managing application state and writing clean, maintainable code following DRY and SOLID principles. Passionate about collaborative development, and continuously learning modern web technologies to deliver impactful, user-focused solutions in a fast-paced Agile environment.

SKILLS

Programming Languages: JavaScript, C, C++

Frameworks: Next JS, React.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Database & Tools: MongoDB, Firebase, Git, GitHub, Postman, npm

Deployment: Vercel, Netlify

Soft Skill: Leadership, Networking, Team work, Time Management, Adaptability & Continuous Learning

PROJECTS

1) Blood Donation Application: [Live Site](#) | [GitHub \(Client site\)](#) | [GitHub \(Server Side\)](#)

Developed a full-stack blood donation management web application that connects donors with recipients based on blood group and location. The platform enables users to register as donors, search for compatible blood donors, and submit blood donation requests efficiently.

- Implemented a **modern, responsive user interface** with smooth animations to ensure an accessible and user-friendly experience across all devices.
- Built and consumed **RESTful APIs** for managing donors, requests, and user data, with optimized backend logic and database queries to improve application performance.
- Technologies: React.js, React Router, Tailwind CSS, Framer Motion, Firebase Authentication, Express Js, MongoDB

2) Finance Management Apps: [Live Site](#) | [GitHub \(Client site\)](#) | [GitHub \(Server Side\)](#)

A full-stack finance management application that allows users to track income, expenses, and budgets through a modern, responsive interface. The platform provides secure authentication, real-time data updates, and optimized backend performance, delivering a fast and user-friendly experience across all devices.

- Smooth animations and a modern, responsive UI for an enhanced user experience across all devices
- Optimized API endpoints and MongoDB queries, resulting in 30% faster performance.
- Technologies: Tailwind CSS, React.js, React Router, Framer Motion, Firebase, Express.js, MongoDB.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE)

2019-2023

Fareast International University

ACHIEVEMENTS

- Completed B.Sc. in CSE with strong academic standing.
- Ranked within the Top 10% in core subjects such as Algorithms, Database, and Software Engineering.

LANGUAGE

Bangla: Fluency

English: Medium
