CAREER OBJECTIVE

Passionate MERN Stack Developer with hands-on experience in building modern web applications using MongoDB, Express.js, React.js, Node.js, Typescript and Next.js. Proficient in REST API development, state management, and writing clean, maintainable code. Eager to learn new technologies, solve real-world problems, and contribute effectively in collaborative team environments while delivering high-quality user experiences.

EXPERIENCE

Company: Akaar IT(Amar Solution)

Designation: Frontend Developer

Duration: March, 2026 - Running

SKILLS

Programming Languages: JavaScript, C, C++

Frontend: Typescript, Next JS, React.Js, Redux Toolkit, Zod, Firebase, Tailwind CSS, Bootstrap

Backend: Node.Js, Express.js MongoDB, PostgreSQL

Deployment: Git, GitHub, Postman, Hoppscotch, npm, Vercel, Netlify

Soft Skill: Leadership, Networking, Team work, Time Management, Adaptability & Continuous Learning

PROJECTS

1) Web Zen Platform: [Live Site](#) | [GitHub \(Client site\)](#) | [GitHub \(Server Side\)](#)

Built scalable, high-performance full-stack Web Zen platform.

Technologies: Next.js, Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB, Firebase

- Implemented a clean, responsive user interface with reusable components and optimized layouts to ensure seamless accessibility across desktop, tablet, and mobile devices.
- Integrated and consumed RESTful APIs with efficient state management and optimized backend logic to maintain fast load times and smooth user interactions
- Implemented secure authentication and role-based authorization using Firebase and JWT, ensuring protected routes, data integrity, and enhanced application security

2) Blood Donation Application: [Live Site](#) | [GitHub \(Client site\)](#) | [GitHub \(Server Side\)](#)

A Blood Donation Management Application, connects donors and recipients based on blood group and location etc

Technologies: React.js, React Router, Tailwind CSS, Framer Motion, Firebase Authentication, Express.js, MongoDB

- Implemented a modern, responsive user interface with smooth animations to ensure an accessible and user-friendly experience across all devices.
- Built and consumed RESTful APIs for managing donors, requests, and user data, with optimized backend logic and database queries to improve application performance.
- Implemented secure authentication and role-based access control with protected routes and real-time request management to ensure data security.

3) Finance Management Apps: [Live Site](#) | [GitHub \(Client site\)](#) | [GitHub \(Server Side\)](#)

A full-stack Finance Management App for tracking income, expenses, and budgets with secure authentication

Technologies: Tailwind CSS, React.js, React Router, Framer Motion, Firebase, Express.js, MongoDB.

- Smooth animations and a modern, responsive UI for an enhanced user experience across all devices
- Optimized API endpoints and MongoDB queries, resulting in 30% faster performance.
- Implemented real-time data updates and state management to ensure accurate financial tracking and seamless user interactions.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE)

2019-2023

Fareast International University

CGPA: 3.35

ACHIEVEMENTS

- Completed B.Sc. in CSE with strong academic standing.
- Ranked within the Top 10% in core subjects such as Algorithms, Database, and Software Engineering.

LANGUAGE

Bangla: Fluency

English: Medium
